

SpaceVac High-Level Cleaning Systems
2021 Illustrated Pricelist

It is with great pleasure that we present the 2021 range of SpaceVac High-Level Cleaning Systems.

As our footprint throughout the world and across a range of different business sectors continues to grow, so too has our commitment to safety and innovation; leading to a range of 14 high-level cleaning systems - each designed to provide a range of options for partners and clients across a range of business sectors and price points.

In addition; our team of engineers have been hard at work developing a range of new add-ons and accessories, such as our new Explorer Camera System and the new Spacesuit which enhance and extend the range and performance of SpaceVac in your day to day activities.

Be sure to book a demo of **SpaceVac** today and see for yourself how you and your team could be working higher, safer & faster!

Tommie Nisula

CEO, SpaceVac International
March 2021

British Engineering. Global Issues.

SpaceVac are the world's leading manufacturer of high-level vacuum cleaning and inspection systems.

The SpaceVac system was first invented over a decade ago and since then, continuous research and development has led to a range of 14 unique systems that are revolutionising high-level cleaning.

The system was first introduced as a way of helping cleaners to clean blocked guttering from the ground floor. Following increasing customer demand however, this product has since been expanded to develop new lines for use in internal dusting, the removal of hazardous combustible materials and even cleaning in specialist environments.

Since our products were first launched onto the market, they have helped some of the biggest businesses in the world overcome the unique challenges associated with high-level cleaning.

Universal Cleaning Solutions to Unique Cleaning Challenges.

High-level cleaning is an area that affects almost all businesses - albeit often in different ways. Over time, accumulated dust can not only visually impact the environment

inside a building but also create and aggravate health complaints for people living and working within the space.

For some businesses - their high-level requirements are external - with a need to clear blockages from guttering and downpipes before leaks can cause damage to the building itself.

For some clients however - material gathering at heights creates even more dangerous concerns. Left unchecked, dust accumulating in cable trays and lighting systems can lead to overheating and fires breaking out. Meantime, in specialist explosive areas such as bakeries, woodmills or specialist manufacturers, then this risk can be deadly - with the accumulated dust serving as a highly combustible fuel source in the event of a fire or explosion.

Loved by Cleaning Teams and Accountants Alike

By introducing a simple to use, floor operated solution to these problems, SpaceVac not only presented cleaning teams with a safer way to conduct their work - by removing the need to work at height - but its introduction also offers a number of unique benefits to our clients.

Our interlocking high-level pole systems remove the need for additional access equipment that would previously have been required. These items - such as scaffolding, ladders or hydraulic lifts - not only require multiple members of staff to operate but are also expensive and time consuming to set up and move around a facility.

The simple removal of these items from cleaning regimes means operators can complete cleaning work in a fraction of the time and substantially cheaper than they could utilizing traditional cleaning methods.

In addition - the small footprint and non-disruptive nature of the system means cleaning work has less impact on operations - reducing downtime and increasing productivity.

As we enter the second decade of our worldwide quest to make high-level cleaning safer, our focus on innovation and improvement continues to deliver high-quality, innovative new products for our clients around the world.

Find out more on SpaceVac including videos, testimonials and case studies from Ikea, Tesco and more at our website: spacevac.us

Innovation. Not Imitation.

Since our line of high-level cleaning systems first entered the marketplace, our engineering team have continued to develop, adapt and refine our systems.

Today our range includes 14 different cleaning systems - all suited to different cleaning environments and price points - as well as a full range of specialist systems, accessories, add-ons and ancillary products for specific purposes.

The core lines within the SpaceVac range are our Internal, Div.2 and External systems - each comprised of a full hose kit, pole kit and range of cleaning tools and brushes. Available at a range of price points - from our entry level **LITE** system to our market leading **ULTRA** system - the range all feature our unrivalled build quality and come equipped with our unique safety locking mechanism as standard.

Our Div.2 Line is manufactured in 100% carbon to ensure complete conductivity and make the system safe for use in environments where the build up of hazardous dusts such as wood, paper or flour can pose a significant risk.

Joining the SpaceVac range in 2020 were three specialist systems all designed with very specific purposes in mind. The first - a fully conductive, **Food Safe Cleaning** system with FDA

cleaning accessories suitable for use in Food and Drink manufacturing facilities - where the highest standards in cleanliness and hygiene are a must.

This exciting new development was joined later in the year by our new **High-Voltage** pole system (Rated as capable of withstanding up to 50,000 volts) for use in high-voltage trackside environments and a new **Museums and Fine Art** accessory pack, designed to provide soft touch, non-abrasive cleaning of old and delicate items.

In addition, our team have also worked hard to create a range of supporting add-ons and accessories to enhance and add further functionality to our products.

In late 2020 we were delighted to unveil the new **Explorer Camera** system - a game changing new development in camera and monitoring technology offering unrivalled quality and specifications (First utilised on the NASA / Orbital Sciences Space Mission).

This powerful new camera and monitoring system boasts a 9 hour battery life, 12MP photos and 1080p recording functionality as well as a unique remote access function to allow sharing of feed with offsite colleagues.

As of March 2021 the future looks bright for #TeamSpaceVac. Our focus on developing new and innovative products means a number of exciting new products are already being readied for launch.

Among these new developments is the launch of a new "ATEX certified" version of our **Explorer Camera**; which will enable operators working within these specialized areas to take advantage of the fantastic functionality of the new Explorer System.

Due Summer 2021, the introduction of our new **Steamline High-Level Steam Cleaning System** will see our high-level cleaning capabilities increase even further. This exciting new collaboration with Tecnovap UK brings the power of steam cleaning to new heights utilizing our brand new system to offer a fast and safe solution to teams looking to take advantage of the many benefits of steam cleaning.

In addition, our pole range continues to be the focus of constant improvement, as our engineering team settle into our new state of the art manufacturing facility in Newcastle. This brand new addition to the SpaceVac family brings with it, the ability to develop a number of exciting new products including the introduction of new composites like Graphene and Kevlar to offer even greater levels of innovation and performance to our customers.

Book a demo of any of our high-level cleaning systems or vacuum today - visit the website at spacevac.us to book!

Explorer Camera

SpaceVac Steamline

The background image shows two workers in a school hallway. They are using long-reach cleaning equipment to clean the ceiling. The hallway has wooden desks, chairs, and a globe. The ceiling has exposed pipes and a grid of lights. The workers are wearing dark clothing and safety gear. The text 'INTERNAL CLEANING' is overlaid in large white letters.

INTERNAL CLEANING

Contents:

- Internal 1.5" Lite
- Internal 1.5" Pioneer
- Internal 1.5" Classic
- Internal 1.5" Pro
- Internal 1.5" Ultra

The SpaceVac Lite cleaning system is a low-cost entry level product for occasional use and teams only requiring a few yards of additional reach.

Ideal for use in domestic settings as well as light commercial use such as smaller retail units or office space, where the removal of dust is critical to not only cleanliness, but also the health of employees working within the space.

Featuring our unique "safety locking mechanism" the **SpaceVac Lite** system is capable of reaching over 13ft in height and can be fully accessorized with a range of additional add-on tools to give users increased flexibility.

Product Focus: 1.5" Internal Lite

No of Poles: 3
Material: Glass Fibre
Working Height: 13ft 6"
Length of Included Poles: 12ft 6"
Pole Diameter: 1.5"
Pole Length: 4ft 2"
No of Heads: 1
No of Brushes: 2
Hose Kit Included: No

What's Included: SV38/LITE

Each 1.5" SpaceVac Lite system comes with the following items included as standard:

3 x SV38/125-LITE
3 x 1.5" x 4ft 2"
LITE Pole

SV/LPB
1 x Lite Pole Bag

SV38/32HA
1 x 1.25" Hose to
Pole Adaptor

SV38/90H
1 x 90 Degree Cleaning
Head

SV38/85W
1 x 8" Small Flexi
Brush

SV38/SRB
1 x Small Round Brush

Don't Forget: All of our SpaceVac cleaning systems can be accessorized with a range of add-on tools and accessories - be sure to check our accessories and add-ons section for more information.

Some of our Clients Include:

Google

Disney

The Pioneer system is a new addition to the SpaceVac range; designed to fill the gap between our budget friendly, entry-level LITE system and the bigger, more powerful systems available elsewhere in the range.

Reaching over 20ft in height from the safety of the ground floor, the Pioneer system has been designed for users looking for a little extra reach and functionality in their SpaceVac system.

Often paired with a backpack vacuum, the unobtrusive working method along with our easy to deploy system, means that maintenance can be carried out with minimal disruption to personnel in the area.

Product Focus: 1.5" Internal Pioneer

No of Poles: 3.5
Material: Glass Fibre / Carbon Fibre Composite
Working Height: 20ft 6"
Length of Included Poles: 17ft 6"
Pole Diameter: 1.5"
Pole Length: 5ft
No of Heads: 3
No of Brushes: 3
Hose Kit Included: Yes

[Hose pictured for illustrative purposes - length of hose varies by system.]

What's Included: SV38/PIONEER

Each 1.5" SpaceVac Pioneer system comes with the following items included as standard:

3 x SV38/16-Pioneer
3 x 1.5" x 5ft Pioneer Pole

SV38/08-Pioneer
1 x 1.5" x 2ft 6" Pioneer Half Pole

SV/PB
1 x Padded Pole Bag

SV38/85W
1 x 8" Flexi Brush

SV38/FLT
1 x 12" Flat Surface Tool

SV38/SRB
1 x Small Round Brush

SV38/45H
1 x 45 Degree Cleaning Head

SV38/135H
1 x 135 Degree Cleaning Head

SV38/90H
1 x 90 Degree Cleaning Head

SV38/3H
1 x 10ft Hose

SV38/HA
1 x Hose to Pole Adaptor

SV38/50HC
1 x 2" Vac Inlet Cuff

SV/HB
1 x Hose Bag

Some of our Clients Include:

Our Internal Classic System provides operators with a safe and easy way to clean high-level areas up to 30ft high from the safety of the ground floor

Designed and manufactured in the UK, the 1.5" classic pole, is made from a high grade 3K Carbon Fibre blend to keep the pole weight to a minimum (when compared with alternative aluminum cleaning poles), whilst being robust enough to withstand rigorous use onsite.

Additionally, the Classic system includes a full range of unique heads, brushes and tools, providing a versatile cleaning solution, that can even interconnect to create custom shapes and configurations for cleaning difficult to access areas!

Product Focus: 1.5" Internal Classic

No of Poles: 5.5
Material: Glass Fibre / Carbon Fibre Composite
Carbon Weave: Unidirectional
Working Height: 30ft 6"
Length of Included Poles: 27ft 6"
Pole Diameter: 1.5"
Pole Length: 5 ft
No of Heads: 4
No of Brushes: 5
Hose Kit Included: Yes

[Hose pictured for illustrative purposes - length of hose varies by system.]

What's Included: SV38-CLASSIC

Each 1.5" SpaceVac Classic system comes with the following items included as standard:

5 x SV38/16-Classic
5 x 1.5" x 5ft Classic Pole

SV38/08-Classic
1 x 1.5" x 2.5ft Classic Half Pole

SV/PB
1 x Padded Pole Bag

SV38/8SW
1 x 8" Flexi Brush

SV38/SRB
1 x Small Round Brush

SV38/15SW
1 x 15" Flexi Brush

SV38/FLT
1 x 12" Flat Surface Tool

SV38/12DB
1 x 12" Ducting Brush

SV38/45H
1 x 45 Degree Cleaning Head

SV38/90H
1 x 90 Degree Cleaning Head

SV38/135H
1 x 135 Degree Cleaning Head

SV38/STR
1 x Straight Head

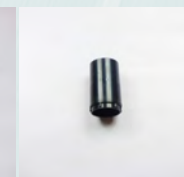

SV/MB
1 x Mesh Bag

SV38/5H
1 x 16ft Hose

SV38/HA
1 x Hose to Pole Adaptor

SV38/50HC
1 x 2" Vac Inlet Cuff

SV/HB
1 x Hose Bag

Operators looking to reach increased heights turn to the SpaceVac Pro 1.5" system for heavy duty performance.

In developing our Pro poles, SpaceVac's engineering team faced a unique challenge - how to increase the reach of the SpaceVac system without compromising operation.

By employing advancements in Carbon engineering technology, the team developed a new carbon fibre blend, utilizing increased amounts of carbon to produce a cleaning pole that not only reduced the individual pole weight [crucial when adding additional poles to reach increased heights] but also improved the rigidity of the complete system to ensure stability - even at full height.

Product Focus: 1.5" Internal Pro

No of Poles: 7.5
Material: Carbon
Carbon Weave: 4k Full Carbon Fibre
Working Height: 40ft 6"
Length of Included Poles: 37ft 6"
Pole Diameter: 1.5"
Pole Length: 5 ft
No of Heads: 4
No of Brushes: 5
Hose Kit Included: Yes

(Hose pictured for illustrative purposes - length of hose varies by system.)

What's Included: SV38-PRO

Each 1.5" SpaceVac Pro system comes with the following items included as standard:

7 x SV38/16-Pro
7 x 1.5" x 5ft Pro Pole

SV38/08-Pro
1 x 1.5" x 2.5ft Pro Half Pole

SV/PB
1 x Padded Pole Bag

SV38/8SW
1 x 8" Flexi Brush

SV38/SRB
1 x Small Round Brush

SV38/15SW
1 x 15" Flexi Brush

SV38/FLT
1 x 12" Flat Surface Tool

SV38/12DB
1 x 12" Ducting Brush

SV38/45H
1 x 45 Degree Cleaning Head

SV38/90H
1 x 90 Degree Cleaning Head

SV38/135H
1 x 135 Degree Cleaning Head

SV38/STR
1 x Straight Head

SV/MB
1 x Mesh Bag

SV38/5H
1 x 16ft Hose

SV38/HA
1 x Hose to Pole Adaptor

SV38/50HC
1 x 2" Vac Inlet Cuff

SV/HB
1 x Hose Bag

Introduced to cater to power users looking to reach heights in excess of 60ft, the SpaceVac Ultra pole is our finest high-level cleaning pole yet

Designed and manufactured in Great Britain, the ULTRA poles have been developed in response to requests for an internal system with increased reach - for use in larger interior spaces.

Developed by our team of engineers, the new pole features a market first '12K Carbon Weave' to provide a pole with our highest quality carbon engineering yet.

The new pole offers our best ever build quality in our lightest, most durable and most rigid pole yet - allowing for heavy duty cleaning performance at world record breaking heights!

Product Focus: 1.5" Ultra System

No of Poles: 9.5
Material: Carbon Fibre
Carbon Weave: 12K Full Carbon Fibre
Working Height: 50ft 6"
Length of Included Poles: 47ft 6"
Pole Diameter: 1.5"
Pole Length: 5 ft
No of Heads: 4
No of Brushes: 5
Hose Kit Included: Yes

[Hose pictured for illustrative purposes - length of hose varies by system.]

What's Included: SV38-ULTRA

Each 1.5" SpaceVac Ultra system comes with the following items included as standard:

9 x SV38/16-Ultra
9 x 1.5" x 5ft Ultra Pole

SV38/08-Ultra
1 x 1.5" x 2.5ft Ultra Half Pole

SV/PB
1 x Padded Pole Bag

SV38/8SW
1 x 8" Flexi Brush

SV38/SRB
1 x Small Round Brush

SV38/15SW
1 x 15" Flexi Brush

SV38/FLT
1 x 12" Flat Surface Tool

SV38/12DB
1 x 12" Ducting Brush

SV38/45H
1 x 45 Degree Cleaning Head

SV38/90H
1 x 90 Degree Cleaning Head

SV38/135H
1 x 135 Degree Cleaning Head

SV38/STR
1 x Straight Head

SV/MB
1 x Mesh Bag

SV38/5H
1 x 16ft Hose

SV38/HA
1 x Hose to Pole Adaptor

SV38/50HC
1 x 2" Vac inlet Cuff

SV/HB
1 x Hose Bag

Our brand new specialist head pack, features a range of brand new cleaning tools and accessories for use in Museums, Galleries and Historic Houses.

Featuring brand new specialist versions of our brushes - finished in goats hair bristles for a soft, non-abrasive cleaning tool, along with a brand new detail kit of brand new cleaning accessories to enable operators using any SpaceVac high-level cleaning system to carry out even detail cleans with a simple attachment.

The system is the perfect way of removing accumulated dust with no risk of damage or abrasion of property.

What's Included: SV/MK

Each SpaceVac Museums system comes with the following items included as standard:

SV38/SHHB
1 x Small Round
Horse Hair Brush
(Soft)

SV38/GHB
1 x Small Goat Hair
Brush [Very Soft]

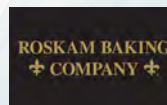

SV38/8SW
1 x 8" Small Flexi
Brush
Horse Hair

SV38/MTK
1 x 8 Piece Micro Tool
Kit [Inc. 1.5" Hose
Adapter And Bag]

Some of our clients include:

SV38/24DB
24" Ducting Brush

SV38/48DB
48" Ducting Brush

SV38/8WT
8" Water Removal Tool

SV38/FLT-NS
1.5" Flat Surface Tool
With No Swivel

SV38/MAB
1.5" multi angle brush

Also Available:

SV38/K-HA
38mm Hose to Karcher
Vac Barbed Inlet

SQ4
Squeegee Blade Pair
For FLT

SV38/15WT
15" Water Removal Tool

SV38/15SW/SYN
15" Flexi Brush with
soft bristles

SV38/MRBSOFT
Medium Round
Brush with Soft
Bristles

SV38/MRBSTIFF
Medium Round
Brush With Stiff
Bristles

SV38/4PB
4" Pipe Brush

SV38/8PB
8" Pipe Brush

SV38/CB
1.5" Crevice Nozzle with
Brush

SV38/GHB
Small Goat Hair Brush
[Very Soft]

SV38/SHHB
Small Round Horse Hair
Brush [Soft]

Working closely with our specialist manufacturing centre, our engineering team have developed a brand new system packed with new features and cutting edge camera technology.

The resultant system is the most powerful, flexible and efficient camera system available anywhere in the specialist cleaning marketplace. The brand new **EXPLORER** systems packs a range of innovative new features including our unique remote access function allowing for real time streaming to anyone, anywhere in the world!

Product Focus:

Stills: 12mp
Records at: 1080p HD
Battery Life: 9 hours
Waterproof: Yes
Waterproof Connections: Yes
Low Light Mode: Yes
Compatible with other devices: Yes
Remote Access Mode: Yes

What's Included: SVCAM/EXPLORER-KIT

Each SpaceVac Explorer system comes with the following items included as standard:

SVCAM-EXPLORER
Waterproof Explorer Camera

SVCAM-OBSERVER
1 x Phone Monitor

SVCAM-CLAMP
2 x Camera and Monitor Tube Clamp

SVSCREEN-MOUNT
Camera Mount

SV/CB
1 x Camera Bag

SV/QRC
2 x Camera and monitor Quick Release Clip

SV/USB
1 x USB Cable

SV/DC
1 x Data Cable

Available Accessories:

SV/IP35
35 ft Telescopic Inspection Pole

SVCAM-FLEXIHOLDER
1 x Flexible neck Bracket

SV/IP55
55 ft Telescopic Inspection Pole

The SpaceVac Spacesuit is a brand new add-on designed to make the use of SpaceVac even more comfortable for operators.

The lightweight but durable support brace, spreads the weight of the system evenly across operators shoulders and back's to make even long, heavy duty cleans much more comfortable and with less strain on the back, neck and shoulders.

The system also includes a pair of prismatic glasses to allow operators to easily monitor progress of cleans without needing to look upwards - helping to avoid operators straining their neck and making SpaceVac even more comfortable to work with.

In addition to being compatible with any of the SpaceVac high-level cleaning systems in our range, the new Spacesuit is also compatible for use with any telescopic inspection pole or even high-reach, water fed window cleaning pole systems making it an attractive add-on to facilities managers and Building Service Contractors alike who offer these additional services in their portfolio.

DIV.2 CLEANING

Contents:

Div.2 1.5" Lite
Div.2 1.5" Pioneer
Div.2 1.5" Pro
Div.2 2" Pro
Div.2 1.5" Ultra

Tested and certified to NFPA and ATEX standards; Our Div.2 LITE Cleaning System is a perfect introductory system for occasional users and operators cleaning at low levels in Div.2 areas.

Recognizing that not all specialist atmospheres have to be huge spaces, the Div.2 LITE system has been developed for entry level users and teams with occasional cleaning requirements above head height.

In developing a smaller variant of our 5ft cleaning pole, SpaceVac's engineers have created the perfect beginners' SpaceVac pole - offering a lightweight package with dependable robust construction to offer peace of mind to operators.

Product Focus: 1.5" Div.2 Lite

No of Poles: 3
Material: 100% Carbon
Carbon Weave: Full 4k Carbon Fibre
Working Height: 15ft 6"
Length of Included Poles: 12ft 6"
Pole Diameter: 1.5"
Pole Length: 4ft
No of Heads: 2
No of Brushes: 2
Hose Kit Included: Yes

[Hose pictured for illustrative purposes - length of hose varies by system.]

Conductive - A conductive tool has a volume resistance <104 ohms. It may have a conductor built in. For use in Div 2, Class 1, 2 & 3.

What's Included: SVA38/EX-LITE

Independently certified to be compliant with NFPA standards 484, 652 and 654, ATEX 2014/34/EU Featuring unique "Dual Button" secondary contact point for fail safe connectivity.

Each 1.5" SpaceVac Div.2 Lite system comes with the following items included as standard:

3 x SVA38/125-LITE
3 x 1.5" x 4ft 2"
Conductive Lite
Poles

SV/LPB
1 x Lite Pole Bag

SVA38/FLT
1 x Conductive 12" Flat
Surface Tool

SVA38/RB
1 x Conductive Small Round
Brush

SVA38/90H
1 x Conductive 90
Degree Cleaning Head

SVA38/45H
1 x Conductive 45
Degree Cleaning Head

SV/MB
1 x Mesh Bag

SVA38/5H
1 x 16ft Conductive Hose

SVA38/HA
1 x Conductive Hose to
Pole Adaptor

SVA38/50HC
1 x Conductive
1.5" Hose to 2" Vac
Inlet Cuff

SV/HB
1 x Hose Bag

Some of our Clients Include:

The Div.2 Pioneer has been specifically launched to fill a gap in the Div.2 cleaning line.

Tested and certified to NFPA and ATEX standards; the Div.2 Pioneer offers operator's up to 20 feet of reach from the safety of the ground floor, allowing operators to safely remove combustible materials such as wood, flour or paper from above head height.

The system was designed to sit in the SpaceVac range between our entry level **Div.2 Lite** system and the more advanced heavy duty products elsewhere in the line such as our **Pro** and **Ultra** lines.

Product Focus: 1.5" Div.2 Pioneer

No of Poles: 3.5
Material: 100% Carbon
Carbon Weave: Full 4k Carbon Fibre
Working Height: 20ft 6"
Length of Included Poles: 17ft 6"

1 x Hose Bag

Our 1.5" Div.2 cleaning poles were a world first when they first entered the combustible market in 2016.

Developed in response to a number of deadly incidents involving the use of incorrect cleaning equipment in combustible zones, SpaceVac sought to engineer a system safe for use in these specialized environments.

Manufactured to the highest standards right here in the UK - our Div.2 poles are made from 100% carbon and are tested and certified to NFPA and ATEX standards;

The system is fully accessorized with a range of conductive and anti-static accessories for flexible cleaning options.

Product Focus: 1.5" Div.2 Pro

No of Poles: 5.5
Material: 100% Carbon
Carbon Weave: 4Full 4k Carbon Fibre
Working Height: 30ft 6"
Length of Included Poles: 27ft 6"

Designed for power users operating in the most extreme of cleaning environments, our 2" Div.2 PRO cleaning poles are the next evolution in cleaning.

Developed in response to customer demand from operators who were cleaning in extreme heavy duty environments, our 2" cleaning poles offer an increased operating diameter to users to increase airflow and reduce the chance of blockages when cleaning at height - even when removing heavy duty deposits such as sawdust, wood shavings or metal filings.

Engineered to the highest standards in the UK - our 2" poles are manufactured in high grade 100% carbon right here in the U.K and are all tested and certified to NFPA and ATEX standards.

Product Focus: 2" Div.2 Pro

No of Poles: 6.5
Material: 100% Carbon
Carbon Weave: Full 4k Carbon Fibre
Working Height: 35ft 6"
Length of Included Poles: 32ft 6"
Pole Diameter: 2"
Pole Length: 5ft
No of Heads: 4
No of Brushes: 2
No of Tools: 2
Hose Kit Included: Yes

[Hose pictured for illustrative purposes - length of hose varies by system.]

Conductive - A conductive tool has a volume resistance <104 ohms. It may have a conductor built in. For use in Div 2, Class 1, 2 & 3.

What's Included: SVA50/EX-PRO

Independently certified to be compliant with NFPA standards 484, 652 and 654, ATEX 2014/34/EU Featuring unique "Dual Button" secondary contact point for fail safe connectivity.

Each 2" SpaceVac Pro system comes with the following items included as standard:

6 x SVA50/16-PRO
6 x 2" x 5ft Conductive Pro Pole [6]

SVA50/08-PRO
1 x 2" x 2ft 6" Conductive Pro Half Pole

SV/PB
1 x Padded Pole bag

SVA50/135H
1 x Conductive 135 Degree Aluminum Head

SVA50/90H
1 x Conductive 90 Degree Aluminum Cleaning head

SVA50/45H
1 x Conductive 45 Degree Aluminum Cleaning Head

SVA50/15H
1 x Conductive 15 Degree Aluminum Cleaning Head

SVA38/LRB
1 x Conductive Large Round Brush

SVA50/FLT-400
1 x Conductive 14" Heavy Duty Flat Surface Tool

SVA50/CN
1 x Conductive Rubber Conical Nozzle

SVA50/4PB
1 x Conductive 4" Pipe Brush

SV/MB
1 x Mesh Bag

SVA50/10H-ULTRA
1 x 32ft Conductive HD rated Hose

SVA50/50HA
1 x Conductive 2" Pole to Hose Adaptor

SVA50/50HC
1 x Conductive 2" Vac Inlet Cuff

SV/HB
1 x Hose Bag

Our new Div.2 Ultra cleaning poles are the new standard in high level cleaning worldwide; utilising cutting edge carbon engineering techniques to create our lightest, most durable pole ever - certified to ATEX and NFPA standards.

Designed to provide a cleaning system with the ability to reach heights up to 60ft, the new **Div.2 Ultra** range provides unrivalled build quality and performance - delivering a pole that is both lighter than our pro pole, with increased rigidity and an even stronger carbon weave.

The results of these developments in carbon engineering technology is a pole that can scale heights of over 60ft from the safety of the ground floor

Product Focus: 1.5 Div.2 Ultra

No of Poles: 9.5
Material: 100% Carbon
Carbon Weave: Full 12k Carbon Fibre
Working Height: 50ft 6"
Length of Included Poles: 47ft 6"
Pole Diameter: 1.5"
Pole Length: 4ft
No of Heads: 4
No of Brushes: 2
No of Tools: 2
Hose Kit Included: Yes

[Hose pictured for illustrative purposes - length of hose varies by system.]

Conductive - A conductive tool has a volume resistance <104 ohms. It may have a conductor built in. For use in Div 2, Class 1, 2 & 3.

What's Included: SVA38/EX-ULTRA

Independently certified to be compliant with NFPA standards 484, 652 and 654, ATEX 2014/34/EU
Featuring unique "Dual Button" secondary contact point for fail safe connectivity.

Each 1.5" SpaceVac Ultra system comes with the following items included as standard:

9 x SVA38/16-ULTRA
9 x 1.5" x 5ft
Conductive Ultra
Poles

SVA38/08-ULTRA
1 x 1.5" x 2ft 6"
Conductive Ultra
Half Pole

SV/PB

SVA38/HA-ULTRA
1 x Conductive
Hose to Pole
Adaptor

SVA38/50HC-ULTRA
1 x Conductive 2"
Vac Inlet Cuff

SV/HB
1 x Hose Bag

The manufacture of food & drink is one that that requires the very highest standards in cleanliness.

The risks of cross-contamination and the integrity of the wider food chain mean that cleaners and facilities managers have a requirement to easily remove the by-products of manufacture from within their facilities as well as the pests attracted by these products.

By developing a specialist version of our cleaning system with a range of unique FDA approved tools, SpaceVac has created a unique solution for cleaning. With materials like dust and flour often dispersing and settling on high level areas, our pole system and food safe tools easily reach these otherwise inaccessible areas, to remove these materials quickly and safely.

Product Focus: SpaceVac Food Safe

No of Poles: 5,5
Material: 100% Carbon
Carbon Weave: 4k Woven Carbon Fibre
Working Height: 30ft 6"
Length of Included Poles: 27ft 6"
Pole Diameter: 1.5"
Pole Length: 5ft
No of Heads: 4
No of Brushes: 3
No of Tools: 2
Hose Kit Included: Yes

(Hose pictured for illustrative purposes - length of hose varies by system.)

*** Please note:**
 Tools and Silicon Bands are available in colour options of Blue, Red, Yellow, Green and White

What's Included: SVA38/EX-FOOD

Each 1.5" SpaceVac Food Safe system comes with the following items included as standard:

5 x SVA38/16-PRO
 5 x 1.5" x 5ft
 Conductive Pro Pole

SVA38/08-PRO
 1 x 1.5" x 2ft 6"
 Conductive Pro Half Pole

SV/PB
 1 x Padded Pole bag

SVA38/135H
 1 x Conductive 135 Degree Head

SVA38/45H
 1 x Conductive 45 Degree Head

SVA38/90H
 1 x Conductive 90 Degree Head

SVA38/STR
 1 x Conductive Straight Head

SVA38/FSCONE
 1 x Anti Static Nozzle Tool

SVA38/FSGN
 1 x Anti Static Gulper Tool

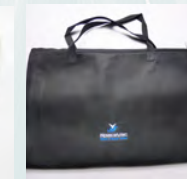

SVA38/FSTB
 1 x Anti Static Triangular Brush

SVA38/FSREC
 1 x Anti Static Rectangular Brush

SV38A/FSRB
 1 x Anti Static Round Brush

SV/MB
 1 x Mesh Bag

SVA38/10H
 1 x Conductive Hose x 32ft

SVA38/HA
 1 x 1.5" Conductive Hose to pole adaptor

SVA38/50HC
 1 x Conductive 2" Vac Inlet cuff

SV/HB
 1 x Hose bag

SV/SB-*
 10 x Coloured Silicon Bands

Anti-Static Accessories*:

SVA38/15SW/SYN
Anti-Static 15" Flexi-Brush Synthetic Bristle*

SVA38/85W
Anti-Static 8" Flexi-Brush*

SVA38/15SW
15" Anti-Static Flexi-Brush, Natural Bristle*

SVA38/12DB
Anti-Static 12" Duct Brush*

SVA38/24DB
Anti-Static 24" Duct Brush*

SVA38/48DB
Anti-Static 48" Duct Brush*

[*] Antistatic - An anti-static tool has a volume resistance <109 ohms, and/or with a conductor built in. For use in Div 2, Class 2 & 3.

Conductive Accessories**:

SVA38/FLT-NS
Conductive 12" Floor Tool no swivel**

SVA38/FLT400-HD
Conductive 14" Heavy Duty Floor Tool**

SVA50/FLT400-HD
Conductive 14" Heavy Duty Floor Tool**

SVA38/ON
Conductive Stainless Steel Oven Nozzle**

SVA50/SN
Conductive 2" SS Spike Gulper Nozzle**

SVA38/LRB
Conductive Large Round Brush**

SVA50/38PA
Conductive 2" to 1.5" Adaptor**

SVA38/8PB
Conductive 8" Pipe Brush**

[**] Conductive - A conductive tool has a volume resistance <104 ohms. It may have a conductor built in. For use in Div 2, Class 1, 2 & 3.

Also Available: SVA50/SSCN
Conductive 2" SS Crevice Nozzle**

SVA38/ONREP
Scraper/Wheel Repair Kit For Oven Nozzle

SVA38/KNT-HA
Conductive Inlet Adapter Karcher NT Type 22**

1.5" Div.2 Floor Kit:

SVA38/FL-KIT

SVA38/FLT400-HD
1 x Conductive 14" Heavy Duty Floor Tool**

SVA38/45H
1 x Conductive 45 Degree Cleaning Head**

SVA38/125P-STR
1 x Conductive Strengthened 4ft 2" Carbon pole**

SVA38/HA
1 x Conductive Hose to Pole adaptor**

2" Div.2 Floor Kit:

SVA50/FL-KIT

SVA50/FLT400-HD
1 x Conductive 14" Heavy Duty Floor Tool**

SVA50/45H-MFPA
1 x Conductive 45 Degree Aluminum Head**

SVA50/125P-STR
1 x Conductive Strengthened 4ft 2" Carbon pole**

SVA50/HA
1 x Conductive Hose to Pole adaptor**

Some of our Clients Include:

A worker in a dark blue SpaceVac uniform and cap is using a long-reach vacuum to clean a street. The vacuum's long black tube extends diagonally across the frame. In the background, there are trees, a fence, and a white van. The entire image has a reddish-orange tint.

EXTERNAL CLEANING

Contents:

External 2" Classic
Universal 2"

Our External Cleaning System is a simple, durable system for the cleaning and maintenance of guttering and downpipes capable of reaching up to a height of 35 feet from the safety of the ground floor.

The cleaning and regular maintenance of these guttering areas, is an often overlooked but crucial part of any building management plan; as blocked guttering can lead to leaks, structural damage to the property, and even health problems for the occupants within.

Given its almost universal application, our External system has rapidly found a home in stadiums, schools, colleges, warehousing facilities and many other sectors worldwide.

Product Focus: 2" External System

No of Poles: 6.5
Material: Carbon Fibre / Glass Fibre Composite
Carbon Weave: Unidirectional
Working Height: 35ft 6"
Length of Included Poles: 32ft 6"
Pole Diameter: 2"
Pole Length: 5ft
No of Heads: 1
No of Tools: 4
Hose Kit Included: Yes

(Hose pictured for illustrative purposes - length of hose varies by system.)

What's Included: SV50-FK

Each 2" SpaceVac External system comes with the following items included as standard:

6 x SV50/16-Classic
6 x 2" x 5ft Classic Pole

SV50/08-Classic
1 x 2" x 2ft 6" Classic Half Pole

SV/PB
1 x Padded Pole Bag

SV50/38CT
1 x Crevice tool

SV50/135H
1 x 135 Degree Head

SV50/50ST
1 x 2" Spike Tool

SV50/38RT
1 x 1.5" Round Tool

SV50/38ST
1 x 1.5" Spike Tool

SV50/75H
1 x Hose x 24 ft

SV50/HA
1 x 2" Hose to Pole Adapter

SV50/50HC
1 x 2" Vac Inlet Cuff

SV/HB
1 x Hose Bag

Some of our Clients Include:

The SpaceVac Universal system is a flexible cleaning system designed for use in internal and external settings.

The Universal system features a full 2" set of cleaning poles and gutter cleaning tools, along with a unique 2" to 1.5" adaptor and a full set of our 1.5" internal cleaning heads to take the system inside for removing high-level dust and other materials from height.

The system is a powerful ally to anyone working in the BSC field; working across a diverse range of areas or looking to add multiple new products to their service lines.

Product Focus: 2" Universal System

No of Poles: 6.5
Material: Carbon Fibre / Glass Fibre Composite
Carbon Weave: Unidirectional
Working Height: 35ft 6"
Length of Included Poles: 32ft 6"
Pole Diameter: 2"
Pole Length: 5ft
No of Heads: 5
No of Brushes: 5
No of Tools: 4
Hose Kit Included: Yes

[Hose pictured for illustrative purposes - length of hose varies by system.]

What's Included: SV50-UNI

Each 2" SpaceVac Universal system comes with the following items included as standard:

6 x SV50/16-Classic
6 x 2" x 5ft Classic Pole

SV50/08-Classic
1 x 2" x 2ft 6" Classic Half Pole

SV/PB
1 x Padded Pole Bag

SV50/38CT
1 x Crevice tool

SV50/135H
1 x 135 Degree Head

SV50/50ST
1 x 2" Spike Tool

SV50/38RT
1 x 1.5" Round Tool

SV50/38ST
1 x 1.5" Spike Tool

SV50/75H
1 x Hose x 24ft

SV50/HA
1 x 2" Hose to Pole Adapter

SV50/50HC
1 x 2" Vac Inlet Cuff

SV/HB
1 x Hose Bag

SV38/120B
1 x 12" Ducting Brush

SV38/45H
1 x 45 Degree Cleaning Head

SV38/90H
1 x 90 Degree Cleaning Head

SV38/135H
1 x 135 Degree Cleaning Head

inlet

SV50/50RT-CO
2" composite gutter
tool round end

SPECIALIST CLEANING

Contents:

Food Safe Cleaning System
High-Voltage Cleaning System
Museums & Fine Art System

Our brand new high-voltage safe range of cleaning poles and tools have been specifically designed for use in extreme high-voltage areas where use of a regular SpaceVac would be prohibited.

Designed and manufactured here in the UK and tested and developed in collaboration with the University of Manchester, this new generation of SpaceVac poles have been tested and independently certified as being capable of withstanding voltages up to 50,000v to enable operators to take our revolutionary high-level cleaning systems and put them to work in areas such as trackside, underground or working near overhead powerlines.

Product Focus: SpaceVac High Voltage

No of Poles: 6
Material: Non Conductive Glass Fibre
Working Height: 28ft 6"
Length of Included Poles: 25ft 6"
Pole Diameter: 1.5"
Pole Length: 4ft 5"
No of Heads: 4
No of Brushes: 5
Hose Kit Included: Yes

[Hose pictured for illustrative purposes - length of hose varies by system.]

What's Included: SV50/HV

Each 2" SpaceVac High Voltage system comes with the following items included as standard:

6 x SV50/14-HV
 6 x 4 ft 5" x 2" High Voltage Poles

SV/PB
 1 x Padded Pole bag

SV38/90H
 1 x 90 Degree Cleaning Head

SV38/135H
 1 x 135 Degree Cleaning Head

SV38/STR
 1 x Straight Head

SV38/45H
 1 x 45 Degree Cleaning Head

SV38/8SW
 1 x 8" Flexi Brush

SV38/15SW
 1 x 15" Flexi Brush

SV38/FLT
 1 x Flat Surface Tool

SV38/12DB
 1 x 12" Ducting Brush

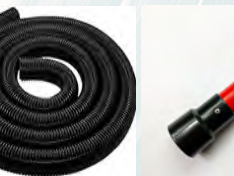

SV38/SRB
 1 x Small Round Brush

SV50/HVPA
 1 x 2" to 1.5" Adaptor

SV/MB
 1 x Mesh Bag

SV50/75H
 1 x Hose x 24ft

SV50/HVHA
 1 x Hose to Pole adaptor

SV50/50HC
 1 x 2" Vac Inlet Cuff

SV/HB
 1 x Hose Bag
